WORK EXPERIENCE

UX Developer Co-operative Student, Trillium Health Partners – Institute of Better Health

Mississauga, Ontario

May 2018 – August 2018 /*Continued part-time until present*

- Conducted a content audit for Care Connector to better execute user testing in Credit Valley Hospital
- Designed and presented requirements for the user interface to increase the efficiency of physicians' and nurses' daily workflows following Agile methodologies
- Programmed and tested user stories in C#, ASP.NET MVC5, HTML, CSS, JS, Knockout, and Angular
- Temporarily lead deliveries for a Sprint during a transition of management process

Undergraduate Teaching Assistant, University of Waterloo – Stratford Campus

Stratford, Ontario

September 2018 – December 2018

- Aided students in understanding GBDA 303: Data and Society concepts including data visualization, the sharing economy, and global principals of privacy protection
- Successfully balanced student work-load with teaching work-load and part-time work

User Experience Specialist, Trusted Clothes

Waterloo, Ontario

June 2017 - August 2017

- Conducted user research by using Google Analytics to understand how the user thinks and interacts
- Ensured that all website content aligned with the strategic goals and branding of Trusted Clothes by redesigning the layout and user flow using Adobe Illustrator
- Launched website 2.0 to 2.2 by using GitHub and successfully increased session duration by 8.1%

User Experience Researcher, Research Entrepreneurs Accelerating Prosperity (University of Waterloo)

St. Jacobs, Ontario

September 2015 - December 2016

- Created journey maps by conducting user tests to review innovative entrepreneurship platforms
- Clearly communicated my analysis of the user experience and feasibility of various technologies by writing research papers for the use of the research center
- Presented research at public Lunch and Learns which resulted in being 1 of 5 students from the university to take on additional projects

VOLUNTEER EXPERIENCE

User Experience Manager, WearHacks, <http://waterloo.wearhacks.com/>

Kitchener-Waterloo, ON

December 2016 - April 2017

- Leveraged social media outputs to promote the hackathon event by posting and designing ads which resulted in receiving twice as many applications than the venue capacity

- Built positive sponsorship relationships during and prior to the event through effective written and oral communication skills and successfully found mentors such as a sales engineer from Nokia
- Led and organized hacker experience events such as the spicy ramen programming challenge; successfully encourage hackers to engage and network with everyone at the event
